"POT ART's collection readable as Camp Pop Politics Data reveals in hindsight floodlight the total madness of the American Government's Drug Bureaucracy — here's doublethink Decades old preceeding our present Orwellian Crisis of Nerves — these photographs from past verbiage document the brainwash laid on US culture thru mass media for decades by corrupt police agencies addicted to power — this is History by feedback & cut up, some actual documents of the brainwash laid out side by side for those too young to remember how America got driven mad by dope fiend paranoia; for those old folks who lived thru it, a horrifying deja Vue of the nightmare now 1970 closing in with armed police against children everywhere. Invaluable/grass scholarship, if grass survives! Rave X Ray historic illustrated Bibliography on Think-Police!"
